

Is This Used Seat OK?

Please think about the following safety issues before using a second-hand child seat. Review the following questions with the owner of the child seat before using it. Your child's safety depends on it.

This information is located on the seat.

Manufacturer: ___ Britax ___ Century ___ Cosco ___ Evenflo ___ Graco ___ Other: _____

Model Number: _____ **Date of Manufacture:** ____/____/____

To meet minimum safety standards, every response must be “No.”

1. Are any parts (including labels) missing or broken?

Check the seat's instruction booklet to know for sure. If the instruction booklet is missing, call the manufacturer — they will send one free! DO NOT accept a seat without its instruction booklet.

2. Is this seat more than 6 years old?

The date of manufacture can be found on the label, usually in **ddmmyy** format. Some seats have an expiration date stamped into the plastic shell. SAFE Guilford does not advise using a seat more than 6 years old.

3. Has this seat ever been involved in a crash?

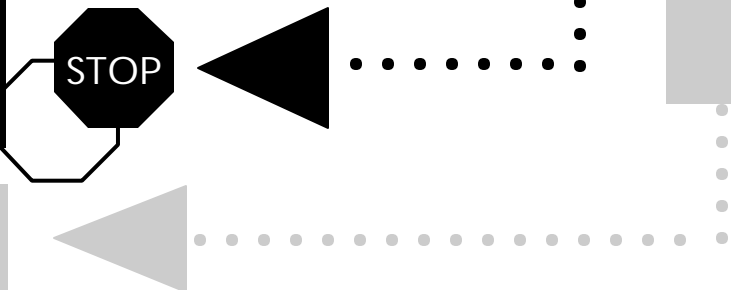

The original owner should give you a history of the seat. DO NOT use a seat that has been in a crash — cracks that you may not be able to see can reduce the ability of the seat to protect your child in a crash.

4. Has this seat been recalled and not repaired?

You can check to see if the seat manufacturer has recalled the seat for repairs. Go to www.safeguilford.org/recalls.html or call **336.832.3939**. Have the seat manufacturer, model number and date of manufacture (see top of this form) ready. If a recalled seat has been repaired, ask for proof. DO NOT use a seat that has been recalled and not repaired.

	Yes	No
1. Are any parts (including labels) missing or broken?	<input type="checkbox"/>	<input type="checkbox"/>
2. Is this seat more than 6 years old?	<input type="checkbox"/>	<input type="checkbox"/>
3. Has this seat ever been involved in a crash?	<input type="checkbox"/>	<input type="checkbox"/>
4. Has this seat been recalled and not repaired?	<input type="checkbox"/>	<input type="checkbox"/>

Answering “yes” to any question means this seat does not meet minimum safety standards. Please call SAFE Guilford to find out how to properly dispose of it.

This seat meets the minimum safety standards described above.
